# BROMPTON COMMUNITY SCHOOL

---

April 20, 2021

To Whom It May Concern,

I am writing this letter in support of Downtown Greens and their effort to purchase the property surrounding Braehead Farm in Fredericksburg. Downtown Greens has worked diligently to provide support to our community through agriculture, community involvement, and increasing food security for the past 25 years. As the Brompton Community School property is adjacent to the land they are trying to preserve, we are keenly aware of the positive impact this would have on all of us.

By acquiring this property Downtown Greens would be furthering their commitment to the community by providing educational opportunities to both children and adults, protected green space for the enjoyment and education of the public, continued food security projects, and a vital conserved wetland habitat. All of these are much needed services here in our area.

It is our sincerest hope that you consider supporting Downtown Greens in their mission to do good work here in Fredericksburg.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "Amber Dawson", with a long horizontal flourish extending to the right.

Amber Dawson  
Founder/Director
